## NATALIA MIKULENKO

FRONT END DEVELOPER  
WEB DESIGNER

I am a Front End Developer and Web Designer from Auckland, New Zealand. I started developing websites back in 2012 and my passion has continued to flourish. I had the pleasure of working with local businesses on projects, ranging from small single page experiments to large database-driven websites.

Occasionally I would stray into UI design works but my true love is working with code.

At work I am a passionate perfectionist that thrives on healthy competition and challenges.

## EDUCATION

**FAR EASTERN FEDERAL UNIVERSITY  
RUSSIA**

Bachelor Degree  
(2006-2011)

Environmental Engineering

022 088 5604

Ponsonby, Auckland

## TOOLS & SKILLS

Typically I start my large projects in one of the Wireframing tools like Balsamiq. After my layout has been fine-tuned I fire-up Photoshop, where I spend some time on setting up the visual concept of the future web pages. Finally I start designing and experimenting with code.

Part of my routine always involves research and skill improving. I enjoy writing Semantic HTML, CSS & jQuery. Most of my projects have been powered by ZURB Foundation, Boilerplate, Bootstrap, GruntJS, COMPASS and SASS.

To see samples of my work please visit my portfolio at: [www.designmagazine.co.nz](http://www.designmagazine.co.nz).

### KNOWLEDGE AND TRANSFERABLE SKILLS:

- HTML/CSS syntax for multiple specifications, including HTML 5/CSS3.
- Knowledge of how to employ the jQuery library for visual effect and event handling.
- A working knowledge with COMPASS/SASS.
- Understanding how to utilise PHP to filter, process and output html, json.
- Methods to ensure browser & device compatibility, file compression techniques for improving speed.
